👤 PROFILE

I'm a web developer with over 10 years of experience creating, managing, and improving websites to ensure fast performance and a smooth user experience. Skilled in WordPress, PHP, HTML, CSS, JavaScript, jQuery, React, and SharePoint. I've worked with Ace Pointer Information Technology and Agility Logistics in Singapore, turning design mockups into fully functional, responsive websites.

I specialize in both front-end and back-end development and led major updates at Ace Pointer Information Technology, including a full redesign of Agility Logistics' internal website. My strong SEO expertise includes optimizing site structure, improving search visibility, and implementing best practices for technical and on-page SEO. I'm passionate about web technologies and focus on delivering high-performing digital experiences that drive traffic and engagement.

🎓 EDUCATION

Bachelor of Engineering, Technological University, Mandalay

2011 — 2012

Graduated with high honors in BE, specializing in networking, AI, computer architecture, DSP, computer graphics, and programming languages with compiler design principles.

Bachelor of Technology, Technological University, Mandalay

2008 — 2011

Graduated with high honors in B-Tech, gaining a strong foundation in programming, networking, database management, and system design through various core and advanced subjects, preparing me for complex technological challenges.

Certificate of Completion WSQ Search Engine Optimisation (SEO) Training Course, Equinet Academy, Singapore

Successfully completed SEO course, gaining expertise in assessing SEO and SEM strategies, selecting tools, conducting keyword research, curating content, implementing on-page SEO, developing content and link-building plans, measuring campaign effectiveness, and improving keyword rankings and KPIs.

🏢 EMPLOYMENT HISTORY

Web Developer at Ace Pointer Information Technology, Singapore

December 2021 — June 2024

- Transformed design mockups into fully functional websites using WordPress, PHP, HTML, CSS, jQuery, JavaScript, React.js, and tools like Git, Visual Studio Code, and Chrome DevTools.
- Managed back-end development with PHP to ensure security, performance, and reliability across multiple projects.
- Developed custom WordPress plugins to integrate APIs and extend website functionality with third-party services.
- Diagnosed and resolved issues in web applications to enhance speed, usability, and overall user experience.
- Executed SEO strategies and Google Ads campaigns, optimizing visibility while effectively managing ad budgets.

Web Developer at Agility Logistics, Singapore

December 2019 — November 2021

- Redesigned and rebuilt the in-house website from scratch with a modern, responsive layout, successfully launching it on schedule.
- Identified and fixed website issues such as broken links, typos, and formatting problems to improve usability and accuracy.
- Performed regular maintenance, applied security updates, and optimized performance to ensure ongoing stability and speed post-launch.
- Collaborated with the Digital Marketing Team to define goals, plan milestones, and align web development with marketing objectives.
- Used SharePoint to design new pages and enhance content management for improved organization and user experience.

Web Developer at Nexlabs Myanmar, Yangon

June 2017 — May 2019

- Developed landing pages, micro-sites, and custom web solutions using PHP and HTML, outside of the WordPress environment.
- Partnered with UX designers to help build a new Web Content Management System focused on usability and scalability.
- Maintained an organized development workflow using project management and version control tools such as GitHub.

Web Developer at Revo Tech Myanmar, Yangon

July 2015 — May 2017

- Designed visually appealing, user-friendly layouts and wrote clean, efficient code to develop responsive websites that deliver seamless user experiences.
- Improved site performance by strategically integrating plugins, applying security best practices, and conducting regular updates and maintenance.
- Collaborated with clients to understand project goals, ensured compliance with accessibility standards, and optimized websites for both SEO and user engagement.

Web Developer & Web Designer at Myanmars.NET, Yangon

October 2013 — March 2015

- Worked collaboratively with a development team to build and maintain websites and web applications.

- Conducted thorough testing to ensure functionality, performance, and security across various devices and browsers.
- Contributed to the creation of new websites and enhancements to existing applications, improving features and user experience.
